

Md Farhan Rahman ANIK

+49 176 76596252 @ farhan.anik@gmail.com farhanrahmananik XING Cottbus, Germany

Zend Certified PHP Engineer and Web Developer with professional experience in PHP, MySQL, WordPress, JavaScript, jQuery, HTML, CSS, responsive web design, cPanel, hosting, and web application development. Currently pursuing an M.Sc. in Cyber Security in Germany while focusing on Laravel-based business web applications. Completed production-style Laravel projects including an HR Management System and a Warehouse Management System, covering authentication, role-based access control, CRUD workflows, dashboards, reports, audit logs, testing, database documentation, and GitHub-based development workflow. Additional background in Linux, Windows Server, Active Directory, networking, Apache/Nginx, DNS, SSH, and troubleshooting.

WORK EXPERIENCE

March 2022
December 2022

Technology Specialist Tech One Global Ltd, Dhaka, Bangladesh

- Implemented and maintained enterprise services including Active Directory, Exchange Server, DNS, DHCP, file and storage services, and Hyper-V failover clusters.
- Supported and optimized SQL Server clusters to improve reliability and performance for business-critical applications.
- Provided L2/L3 technical support, root-cause analysis, incident resolution, and troubleshooting for enterprise infrastructure issues.
- Prepared proof-of-concept environments and technical demonstrations aligned with customer requirements and solution stacks.
- Created technical documentation and supported production IT environments involving servers, databases, deployment, reliability, and system operations.

Windows Server 2016/2019 Active Directory Exchange Server DNS DHCP Hyper-V Failover Clustering SQL Server PowerShell

August 2019
August 2021

Technical Support Executive and Instructor Linux Pathshala Ltd, Dhaka, Bangladesh

- Installed, configured, and maintained Red Hat Enterprise Linux systems including users, permissions, storage, services, networking, and security hardening.
- Managed web hosting, DNS, domains, FTP, SFTP, Apache, Nginx, and email server-related tasks in Linux-based environments.
- Diagnosed and resolved hardware, software, server-side, and network issues for students and corporate clients in mixed Linux and Windows environments.
- Delivered instructor-led training on RHCSA and RHCE, guiding students through hands-on labs and exam-focused practice.
- Created practical lab scenarios covering SELinux, firewalls, web services, file services, SSH, and shell scripting.

EDUCATION

Ongoing Oct 2023	M.Sc. in Cyber Security Brandenburg University of Technology Cottbus-Senftenberg, Germany
Dec 2021 Jan 2017	B.Sc. in Computer Science and Information Technology Primeasia University, Dhaka, Bangladesh

PROJECTS

- **Cyber Security Incident Management – Laravel**

Completed a production-style Cyber Security Incident Management platform using **Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Git, and GitHub**. Implemented authentication, custom RBAC, incident reporting, assignment workflow, IOC management, evidence tracking, response actions, dashboard analytics, security reports, audit logs, testing, and documentation.

Repository : GitHub Repository

Technologies : Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Cyber Security, RBAC, Audit Logs

- **Applicant Tracking System – Laravel**

Completed a production-style Applicant Tracking System using **Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Git, and GitHub**. Implemented authentication, RBAC, applicant and job management, hiring pipeline workflow, interview tracking, offer management, dashboard, reports, audit logs, testing, and documentation.

Repository : GitHub Repository

Technologies : Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, ATS, RBAC, Reports

- **E-Commerce Platform – Laravel React**

Completed a production-style E-Commerce Platform using **Laravel, React, PHP, MySQL, JavaScript, Bootstrap, Git, and GitHub**. Implemented storefront, product catalog, cart, checkout, orders, coupons, reviews, customer workflows, admin features, reports, testing, and project documentation.

Repository : GitHub Repository

Technologies : Laravel, React, PHP, MySQL, JavaScript, Bootstrap, Cart, Checkout, Orders, Reports

- **HRMS – Laravel**

Completed a production-style Human Resource Management System using **Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Git, and GitHub**. Implemented authentication, RBAC, employee management, departments, designations, attendance, leave management, payroll, dashboard, reports, tests, and documentation.

Repository : GitHub Repository

Technologies : Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Git, GitHub, RBAC

- **Warehouse Management – Laravel**

Completed a production-style Warehouse Management System using **Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Git, and GitHub**. Implemented authentication, RBAC, product/category/supplier management, warehouse management, stock workflows, purchase orders, reports, audit logs, export reports, testing, and documentation.

Repository : GitHub Repository

Technologies : Laravel 12, PHP 8.x, MySQL, Bootstrap 5, jQuery, DataTables, SweetAlert2, Inventory, Reports, Audit Logs

- **WooCommerce Store – WordPress**

Completed a WordPress and WooCommerce store project using **WordPress, WooCommerce, PHP, MySQL, HTML, CSS, JavaScript, and GitHub**. Implemented product catalog, categories, coupons, reviews, checkout configuration, order workflow, custom storefront styling, documentation, and GitHub Pages project presentation.

Repository : GitHub Repository

Technologies : WordPress, WooCommerce, PHP, MySQL, HTML, CSS, JavaScript, GitHub, E-Commerce

SKILLS

Web Development	PHP, Laravel 12, WordPress, MySQL, JavaScript, jQuery, HTML, CSS, Bootstrap 5, Responsive Web Design, DataTables, SweetAlert2, API Integration
Laravel Backend Development	Authentication, Role-Based Access Control, CRUD Workflows, MVC Architecture, Database-Driven Applications, Reports, Audit Logs, Testing, Documentation
Database Skills	MySQL, PostgreSQL, Oracle Database 12c, SQL, Schema Design, Database Backup and Restore, Data Queries, Indexing, Data Maintenance
Tools and Platforms	Git, GitHub, Composer, NPM, Docker, VirtualBox, cPanel, Web Hosting, FTP, SFTP, VS Code, PhpStorm, PyCharm
IT Infrastructure	Linux, Red Hat Enterprise Linux, CentOS, Ubuntu, Fedora, Windows Server, Active Directory, Group Policy, DNS, DHCP, Apache, Nginx, SSH, Hyper-V, VMware, PowerShell, Bash, Shell Scripting
Cyber Security	Web Application Security, Network Security, Authentication and Encryption Concepts, SELinux, Firewall Configuration, Wireshark, Packet Analysis, Incident Handling, OWASP Testing Fundamentals
Cloud Computing	AWS EC2, AWS S3, AWS RDS, AWS VPC, Route 53, IAM, Infrastructure Provisioning, Cloud Security Best Practices
Programming Languages	PHP, JavaScript, Python, SQL, C, C++

CERTIFICATES

Red Hat Certified System Administrator (RHCSA) • Red Hat Certified Engineer (RHCE) • Zend Certified PHP Engineer

LANGUAGES

English — Professional (C1) • **German** — Elementary (A2)
